# Company Experience

---

4UM Investimentos is not a traditional investment bank. Instead, it stands out with over 15 years of expertise in the Brazilian financial market. The company specializes in analyzing and investing across diverse sectors, leveraging the insights of a vast network of mentors and experts. These include fields like credit, insurance, capital markets, energy, construction, media, and agribusiness.

This robust experience equips 4UM Investimentos to make well-informed investment decisions, particularly in early-stage companies such as Pré-seed, Seed, and Série A. Although its operations diverge from classic investment banking activities like mergers, acquisitions, or security underwriting, its comprehensive market knowledge forms a solid foundation for strategic investments.
